REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-6 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: The feature of independent claim 1 directed towards allowable subject matter are the dividing each stripe of an acoustic touch screen into a plurality of groups according to an integral times wavelength of an acoustic, according to the distance between said reflection bars increasing principle, increasing the distance between said reflection bars from rear to front, and according to a condition of the transmission loss of a glass surface, cutting the border of said reflection bars in one group with different length. These features in combination with the other limitations of the claims makes them allowable over the prior art of record. Adler teaches of the acoustic display as described in the prior art of record shown in the Applicants figure 1 however Adler lacks the feature according to a condition of the transmission loss of a glass surface, cutting the border of said reflection bars in one group with different length. Therefore said features in combination with the other limitations of the above independent claims are found allowable over the prior art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
